

Cyberbullying and Social Networking

Penn-Delco recently hosted our annual Joint PTL meeting. Guest speaker Det. Ray Kuter from the Montgomery County Internet Crimes Against Children Unit addressed the topic of cyberbullying and the challenges of social networking to over sixty district parents.

Det. Kuter provided examples of cyberbullying and presented parents with tips to recognize when it is occurring and how to combat it. His presentation included a frank discussion regarding internet safety issues, such as protecting children from online predators, as well as some of the most popular sites children visit, including Facebook, MySpace, YouTube, and Twitter. Following the general session, each school's PTL hosted meetings in the high school.

Free DVD copies of the Joint PTL meeting will be made available to interested parents in the near future.
