**PENN-DELCO SCHOOL BOARD APPOINTS DIRECTOR OF TECHNOLOGY**

**Aston, PA:** The Penn-Delco Board of School Directors recently approved the appointment of Mr. David Toothe as Director of Technology for the Penn-Delco School District. Having worked in the technology and information services field for over 20 years, Mr. Toothe brings an impressive amount of experience to the district.

Mr. Toothe most recently served as the Associate Director of Information Systems for Special Education at the Kennedy Krieger Institute in Baltimore, Maryland. In that capacity, he was responsible for leading, developing, and supporting the full range of advanced instructional and assistive technologies, campus information systems, network and information security, media centers and information technology across multiple campuses. Mr. Toothe was instrumental in increasing the meaningful use of interactive whiteboard technology, iPads, and student laptops within the instructional program.

Previously, Mr. Toothe was Vice President for Informational Technology at Harford Community College, in Bel Air, Maryland. At Harford, Mr. Toothe implemented an online registration and credit card payment system, developed remote access technology that allowed staff members to connect to the Institutions network and all essential applications, and instituted an emergency notification system capable of reaching students, faculty, and staff via voice, SMS, and email.

Following his appointment, Mr. Toothe noted, "I am very excited about the opportunity to join an award winning, successful school district with such strong community and parental support. I am looking forward to using my leadership and information technology experience to further advance Penn-Delco's mission of assisting students in reaching their full potential. It is my belief that state of the art information technology is a necessary part of a successful educational institution. Our technology team will provide the tools students, faculty, and staff require to be successful in today's society."

Dr. George Steinhoff, Penn-Delco Superintendent of Schools stated, "David will be an outstanding addition to our administrative team. He has a proven and very high level of technical expertise in computer hardware, software, database management, and network infrastructure. Those skills, combined with his depth of knowledge on the use of instructional technology in the schools, will serve Penn-Delco students and staff well."
