- **Principal's Report-**

- I am so appreciative of everyone. The virtual student-led conferences were unique, but there were great parts about it. They're going to follow up with a survey. They thought it worked well and the kids did great.

- The Drama/Theater group is going to start doing virtual activities. Ms. Thorpe is looking forward to getting those kids connected, and information will be released to the students. There will be more news to come with that.

- Go Guardian- A program that looks at chromebooks when students are virtual. Teachers can check what they are doing. If parents have a concern that kids aren't producing work, please contact teachers and they will check their activity.

- On Wednesdays, after synchronous times, students can still meet with teachers. Teachers want to work with students to offer extra help. School is still over at 3 PM on Wednesdays.

- Dr. Steinhoff will be following up with parents on COVID guidelines. If Northley has to go virtual, the schedule will not change.

- Please make sure students are bringing home Chromebooks every day in case the school temporarily goes virtual.

- Students have lanyards for buying lunch. Students need to bring lanyards back every day they are in school to buy lunch.

- Looking forward to the Spring. 2021 brings hope that Northley can provide more things for the students.

- Stay safe and enjoy the holidays with your family.

- **Teacher Representative Report- Mrs. Taylor**

- Thanks for coming out to the conferences. If you're having trouble checking grades online, email the helpdesk. Also, you can ask your kids to show you how to do it. The kids know how to navigate Schoology, even the 6th graders .
