

## Dear Penn-Delco Community:

Penn-Delco has joined the Paper Retriever Program of Abitibi-Consolidated and is able to recycle paper, newspapers, catalogs, magazines, junk mail, weekly advertisement circulars, construction and poster paper, shredded paper, as well as spiral notebooks and workbooks!

The main goal of this program is to be more proactive and attentive to the **environmental benefits of recycling paper**. We want our students to learn and experience the importance of conservation and the impact we have on our world. Secondly, our schools will be able to utilize this program as a fundraiser as well. Each of our schools will earn money based on the number of tons of paper collected each month.

To truly maximize the potential of the paper-recycling program, we **welcome the community** to get involved. You can help to foster our goal of environmental stewardship, as well as assist with our fundraising, by bringing your paper and dropping it off in our **yellow and green paper-retriever dumpsters**. All of our dumpsters are located on the side or rear of each school. It is easy to get started - just place an empty box near your trash can at home, collect paper, and drop it off at one of our school dumpsters each week.

Every time our dumpster is full - our school saves 17 trees from being cut down! Don't throw this piece of paper away, recycle it today!

Thank you for your support with our recycling efforts.

If dropping off shredded paper: please put it in a plastic bag, knot it, and put a hole in the bag to let out the air trapped inside.

If dropping off workbooks: please take off the front and back hardcover - the metal spiral may remain intact. You do not need to remove staples from the paper.
